

TENDER/EXPRESSION OF INTEREST APPLICATION

The proprietor of miSport and PitchVision Cricket Technology, headquartered in the UK with operations in India, invites tenders from reputed distributors for the country and/or regional rights to market and sell groundbreaking products, software, and data licensing for the largest sport in India – CRICKET. This Patented technology will revolutionize the way in which nearly every player, from grass roots to the professional ranks, will practice and train for the biggest sport in India. The PitchVision system acts as a personal Hawkeye system, providing players with instant performance data across all three disciplines of cricket: batting, bowling, and fielding. For every ball they bowl: pace, line, length, and deviation; for every shot they play: placement, runs scored and dismissals; and for every throw they make: speed and accuracy.

Further Details are available on our website, www.pitchvision.com/tenders from where the Tender Document can be downloaded. Please send the completed application to tenders@miSport.com by 5 Dec 2011.
